What to expect

I'm a sucker for proposal stories and will probably cry at least twice on your wedding day... sorry not sorry? I pride myself on being dedicated to you as people as it's how I ensure your experience with me is well worth the investment.

Embracing your love without a care in the world, is what I strive to help you achieve. As you will soon see, I'm more than just your photographer - throughout the planning process you will be provided resources so that you enjoy every moment leading up to, on, and after your wedding day.

I'm extremely humbled to say that I consider many of my clients to be friends due to the intimate approach I have - it's not just writing you into my diary and seeing you on the wedding day. It's catching up, getting to know your loved ones and the relationship you have with them - whatever I have to do to understand who you are as people and deliver images reflecting just that.

With your wedding day being one of the biggest events to commemorate your love, don't you think the person capturing it should be equally invested?

CONSULTATIONS

Are unlimited because you'll never know when you may just need a creative eye to call while visiting your venue, or while putting together colour palettes. Think of me like you're secret wedding planner.

VENDOR DISCOUNTS

Without giving away too much, as this is a little gift from me and all of my favourite vendors, just know that we hope to make your planning a breeze.

ENGAGEMENT SESSION

A gift from me to you. Whether you book this 18 months before the wedding or the day before (yes, you read that right), choose to use the images for save-the-dates, or have never been photographed together before, this session will ease your nerves for the big day.

CUSTOM TIMELINE & PLANNING SUPPORT

Throughout your experience putting together this celebration, trust that I will help you with resources and organisation to help prepare you for it all!

COVERAGE

This starts from the moment I get to your first location, through until the moment I pack up for the day. Have a look at my suggested time allocation on the FAQ page for more info.

SECOND SHOOTER

Second photographer is utilised to ensure you get the most out of your day. We can be in two places at once - so there's no need to rush.

Packages

explained

UNLIMITED IMAGES

My soul will never rest until it is understood that one can have 'quality' AND 'quantity' (when done right). You see, I refuse to limit the special moments captured on your day just to meet a "100 p/hr" stock standard. Why? Because you're not 'stock-standard', and I'm not about to give you a gallery reflecting the same shot-list as the next wedding. I want you to see and feel every moment that was yours, every fallen tear, every time you looked at each other endearingly, every small quirk that makes your gallery truly YOURS. Whether that means you have a gallery with 600 or 1500 photos, entrust me to make every ounce of it honest to your day, and your love.

PRIVATE ONLINE & PHONE GALLERY

You'll receive more info on this after receiving your engagement photos and/or when you get your sneak peeks. Don't worry - those emails for support and planning will have you sorted for every step along the way, I'll never leave you in the dark.

SNEAK PEEKS

Delivered within 24 hours of your big day, unless otherwise discussed, your sneak peeks will provide a mini-recap perfect for social media announcements and to keep you at ease while waiting for your full gallery to arrive.

THE "SHOP"

After your sneak peeks arrive, you'll receive an invite to order Thank-you cards, then about a month after your full gallery is delivered I will reach out to organise a Fine Art consultation for a wedding album, prints or both. I love to call this process your "Wedding 2.0" - the personalised experience continues!

20% DISCOUNT & VIP ACCESS

I hope to ensure wherever love takes you, its story can be captured in the most personalised and affordable way possible. I can't wait to show you the full RJP experience.

FAQ

WHAT GEAR DO YOU WORK WITH?

I'm a Canon gal, so I work with two Canon r3 bodies, and a range of lenses, flashes & other goodies to provide you with high quality images.

DO YOU OFFER PACKAGES FOR 6 HOURS OR SHORTER?

Absolutely, these intimate packages are usually suited to Elopements or Micro Weddings. If this is more your vibe, let me know and I'll send you some more relevant information.

I DIDN'T SEE DETAILS ABOUT OUR WEDDING'S LOCATION ON YOUR TRAVEL LIST?

Are you looking to book a wedding more than 150kms outside a main city/town? Please request a custom travel quote - you may just score free travel if your plans sweep me away.

WHAT IF WE GO OVER OUR ALLOCATED HOURS ON THE WEDDING DAY?

Our consultations and communication leading up to the wedding assists in preventing this. However, there's the off chance our plans may be switched up due to variables out of our control, and this is okay! I will always advise if our timeline isn't being met, and make suggestions to get us back on track. However, in the case you need extra time - that's fine too! There is a charge of \$400 (+gst) per additional hour required.

FAQ

WHEN WILL MY IMAGES BE READY?

Keen to see the rest of your photos ASAP? While full gallery delivery is contract to be a maximum of 10 weeks*, we can get a few extra helpers & have all the magic to you within 1.5 weeks. Prices start at \$800 + GST

* Please note November & December weddings have a buffer of 8 weeks added to their delivery times to account for my holiday break.

HOW DO YOU KEEP OUR IMAGES SAFE?

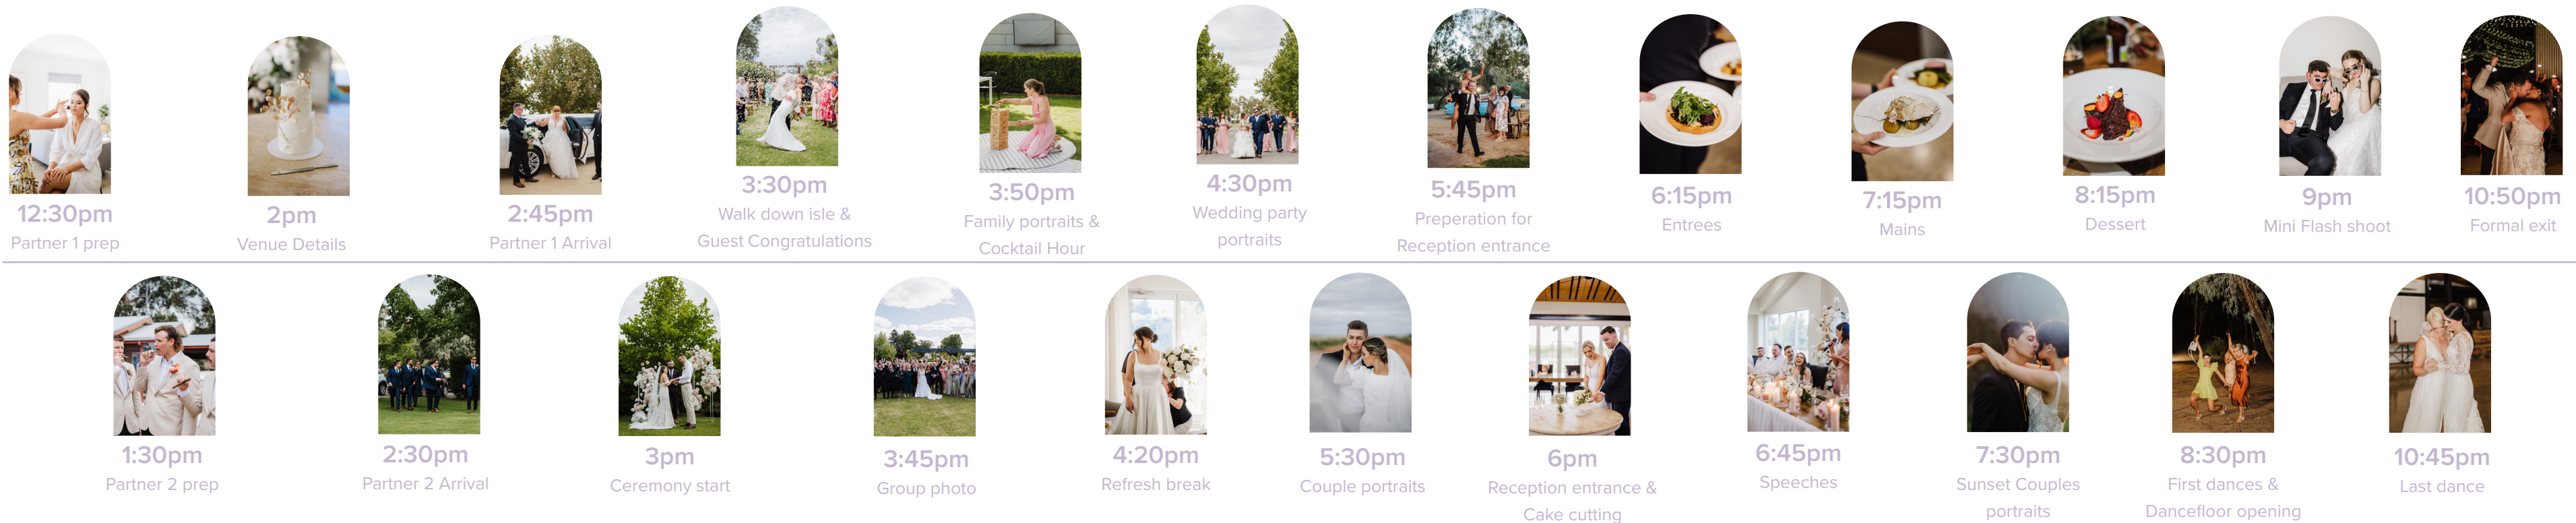

On the day each of my cameras hold two SD cards, ensuring two copies of each image is taken. Your images will be backed up to my initial harddrive the night of/day after your wedding at the same time your sneak peeks are being edited. At this stage of the process, you will have three copies of every image from your wedding: 2 SD cards and a Harddrive (any second shooters will also have the same backups). After your final gallery is uploaded (and delivered), your images will be saved to another harddrive and its server, live in the "cloud" of my gallery server and then removed from my SD cards. Meaning you'll always have three back-ups of any one time before the images are handed over to you, and afterwards we'll have both my new three backups, plus yours! So, ensure you also save your images once you receive them - the more back ups we have, the better.

HOW DO YOU CHOOSE YOUR TEAM OF SECOND SHOOTERS?

Each of my second shooters are chosen based on their portfolios, equipment, experience and ability to uphold RJP's values.
